

Parents' & Carers' Support Line

Blaenau Gwent Educational Psychology Service (BG EPS)

We in BG EPS will continue to support our community in these challenging times. We recognise that the current school closures and the concerns about Corona Virus may increase the worries of children and families.

We will be available to provide advice to help parents and carers in meeting the learning and wellbeing needs of their children. We have set up an '**EPS Support Line**' for parents and carers to contact us. They should email

bgeps@blaenau-gwent.gov.uk

and include a telephone contact and brief information about advice required. We will respond as soon as possible.

Please note that this offer applies only for parents and carers who would like some extra advice around supporting their children's **learning needs** and / or **emotional wellbeing** during the period of school closures.

We are also providing information packs for

- learning at home;
- helping with worries; and,
- promoting emotional well-being.
